Beat the Heat!

Keep Your Cool During Extreme Hot Weather

Brutal summer heat is more than uncomfortable. High temperatures and humidity can pose a health and safety threat.

Hot Weather Tips

- Drink lots of water, avoid alcoholic beverages, coffee, tea and sodas.
- Limit outside activity to early morning or late evening.
- Avoid going outside in extreme heat.
- If you don't have air conditioning, keep shades drawn and blinds closed, but windows slightly open.
- Rotate ceiling fans counter clockwise.
- Keep electric lights off or turned down.
- Limit the use of your stove.
- Wear loose, light-colored clothing.
- Take cool baths and showers.
- Don't leave anyone (including pets) in a parked car— even for a few minutes.

Check on family, neighbors, and friends. If you are unable to make contact, call 911 and request a well-being check.

Look for establishments that have “Cooling Center” signs. These are open to the public. Residents are invited to come in and get relief from the heat.
